# POWER OPTIONS

One-Touch™ Technology allows the operator to open and close the tarp system with one push of a button

One-Touch™ Technology works by measuring amperage load to a preset value

Start, stop, and reverse your tarp direction with one push of a button

Simple 3-button remote design is easy to operate, with large easy-to-read buttons

This powerful remote can operate up to 5 different trailer accessories with a maximum range of 100 ft. • Tarp • Front Hopper • Rear Hopper • 3rd Hopper • Work Lights • etc.

**Hinge Joint**  
Provides constant tarp tension during windy days and is adjustable for various load conditions

**HD Brackets & Arms**  
1st HD system on the market and is made of specially treated extruded aluminum

**5000 Series Motor**  
Motor has interior alloy reinforcing skeleton and corrosion proof motor casing

**Easy Motor Disconnect**  
Single pin can be disengaged in minutes for manual operation

**HD Drive Connection**  
The drive connection to the motor has HD aluminum adapter for increased reliability

**One-Touch™ Technology**  
Allows the operator to open and close the tarp system with one push of a button - Patent Pending -

**Moisture-Resistant Control Box**  
Control box protects all electrical components from corrosion and road debris

TAKE CONTROL WITH ONE REMOTE

## EASYFLOW Hydraulic Trap

### Features:

- Industries BEST Swing Clearance; No trap operator or motor to interfere with swing auger
- Operates using a single 12 volt hydraulic motor
- No Limit Switches
- Easily control product flow by feathering the door open or close
- Hydraulic motor and reservoir are protected in the apex of the trailer

Optional Manual Override System
